

Bulk and General Earthworks

AE Group has been the principal contractor on many large bulk earthworks construction projects in Queensland and New South Wales. These projects have involved significant earthworks in hard and soft ground conditions involving up to 1.2 million bank cubic metres of cut to fill at level 1 specification.

Austrorads National Prequalification for Civil Construction, Road and Bridge Contractors: R3, B2 and F20.

Clearing, grubbing and mulching

Demolition and removal

Borrow pit development including material conditioning

Manufacture (in-situ materials), screening and crushing

All forms of detailed earthworks
